

2020-2021
YOUNG PLANTS CATALOG

Welcome! We continue to expand our product selections to offer you exciting new items, along with proven favorites. This year you will find new series, such as Capella Petunias, Sol Luna Impatiens, Caldera Geraniums, Colibri Calibrachoa, Fuchsia Fuchsia, Florencio Begonias, and Bacio Begonias. We are also adding three foliage collections (Bromeliad, Pilea and Hoya) and a new series of Durabella multi-liners.

Thank you for making D.S. Cole Growers your trusted source for young plants from all over the world. For complete cultural information, please visit our website: www.dscolegrowers.com.

TRAY SIZES

MIX AND MATCH ORDERING

For your convenience, we now produce most of our cultivars rooted in trays of 51 and sold as quantities of 50. This means you can receive twice the varieties as products produced in a 102 tray. Unless otherwise noted, the tray size will be a 51-count tray.

51-count tray

50-COUNT STRIP TRAYS

Although these items are sold in increments of 50, the product is produced in strips of 25-count to allow better spacing on our benches. Items in this tray are indicated with this symbol and include most Begonias and Geraniums.

Strip tray 50

There is only one thing to remember when ordering all of our products (other than Collections): order in increments of 50 per variety, regardless of the tray size!

Certified:

D.S. Cole Growers is certified by the international organization MPS as a sustainable grower. We also hold a GAP (Good Agriculture Practices) certificate from the USDA (more about certifications on page 62).

ON OUR COVERS

Our front cover features the new Didelta Fancifillers™ Silver Strand from our extensive selection of companion foliage. The back cover features the new Dahlia Hypnotica Icarus.

Lollipop ^{ppaf}
Calibrachoa MiniFamous® Neo Blue, Neo Deep Yellow and Neo Pink

All of our multi-liners now come separately with one component in a cell for better performing results. You will continue to purchase in the same increments, but we send each of the rooted cuttings individually for you to pot as desired.

This new approach cuts your costs by allowing you to fill pots or baskets with more plugs with the same, if not fewer rooted cuttings.

This applies to Trixi Liners, Kwik Kombos, and Multi-Liners shown on pages 3-7.

TRIXI LINERS

Out of the Blue ^{ppaf}

•4" • Sun • Texture accent
• Silvery foliage
• Biennial; flowers year 2

PAPAYA

New Papaya
• Up to 3-feet in height in the garden
• Likes fertilizer
• Great accent plant

SETCREASEA

Setcreasea Purple Queen
•7" • Sun or shade
• Nice slow growth
• Great in combo planters

Setcreasea Purple Variegata
•7" • Sun or shade
• Similar to Setcreasea Purple Queen, but with soft, subtle variegation

SOLANUM

Solanum jasminoides aurea variegata
•8" • Sun to partial shade • Variegation with a yellow theme
• Vining • Flowers

SENECIO

Senecio Silvery Velvet
•10" • Soft texture

Senecio Angel Wings ppaf
• Grown from tissue culture • Full sun • Leaves are silvery, gray-white

STROBILANTHES

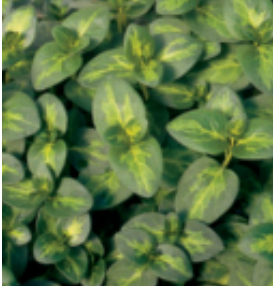

Strobilanthes Persian Shield
•12" • Sun to partial shade
• Purple and silver foliage shines in the sun

VINCA VINE

Vinca Expoflora
• Lots of white in this variegation

Maculata
• Green and yellow/cream trailing foliage

Wojo's Jem USPP 11809
• Green with cream centers
• Sun • Trailing

Major Variegata
• Green and white trailing foliage

IPOMOEA

Ipomoea Sidekick™ Lacey Lime ppaf

Ipomoea Desana Lime ppaf

Ipomoea Tricolor
• Trailing • Sun
• Multicolored foliage features pink shades

Ipomoea Sidekick™ Lime ppaf
• More compact than Marguerite
• Great color

Ipomoea Desana Bronze ppaf

Ipomoea Sidekick™ Heart Bronze ppaf
• Copper foliage

Ipomoea Marguerite
• Trailing • Sun
• Golden yellow foliage: most vigorous Ipomoea

Ipomoea Blackie
• Trailing • Sun
• Rich, near-black foliage makes great mixed planters

• 4" and 6" pots
• Fully double flowers
• Medium sized plants

New Move 2 Joy Passion Red ppaf
• 4" and 6" pots
• Fully double flowers
• Medium sized plants

Growing TIP

Elatior Begonias are one of the longest flowering potted plants available. Best grown as a programmed crop - can be set up to fill your benches all year. For best results, start this crop at temperatures above 65° F. Don't allow pots to ever go completely dry. Full sun is fine until May, at which time some shading is required to avoid burning of the leaves. Call us directly for additional cultural directions.

Dragone Sunset ppaf

• An interesting stand-alone variety
• Very double-flower form

New Caldera Salmon ppaf
• 14"

NEW Series

New Caldera Pink ppaf
• 14"

New Caldera Red ppaf
• 14"

This new series from Syngenta has the flower type of the Caliente series, but more spreading. Great for baskets.

ROCKY MOUNTAIN™ SERIES

Rocky Mountain Orange ppaf

Rocky Mountain Violet ppaf

Rocky Mountain Pink ppaf

Rocky Mountain Dark Red ppaf
This is our bestselling Zonal Geranium both for its color and overall performance.

Rocky Mountain™ Geraniums have set the standard for homeowner performance. Strong, vigorous plants have large, round flower heads for premium sales, which make these stand-out varieties for the independent garden center.

Rocky Mountain Magenta ppaf

Rocky Mountain Salmon ppaf

Rocky Mountain White ppaf

MOXIE!™ SERIES

Moxie!™ Scarlet ppaf

Moxie!™ Dark Red ppaf

Moxie!™ Geraniums have all the benefits of interspecific Geraniums without all the vigor. They are well-behaved for smaller pot production.

CASCADE™ SERIES

Cascade White ppaf

Cascade Sofie ppaf

Try mixing Cascade White with Calliope Large Dark Red for a stunning display.

Moxie!™ Pink ppaf

Moxie!™ Deep Rose Mega Splash ppaf

Moxie!™ White ppaf

GERBERA

PATIO SERIES

Patio Pinnacles ppaf

Patio Bighorn ppaf

Patio Karoo ppaf

Growing TIP

Patio Gerbera are bred for the outdoors. They will flourish all summer and are best grown in 7" pots or larger. Great hit with homeowners due to bloom size and intensity.

Strip tray
50

Orange County ppaf

- 15-18" with flowers
- Flower size is 4" - 5" in diameter

Patio Kruger ppaf

Patio Glacier ppaf

Patio Volcanoes ppaf

GARVINEA® SERIES

Growing TIP Garvinea are Gerbera bred for outdoor use. They get better and better all summer long. Whether in a container or in the ground, each plant grows stronger with up to 15 stems at once. Grow in full sun in 6" pots or larger. Crop time is approx. 8-10 weeks. Plants can be grown at 59° to 68° until flowering when temperatures can be dropped.

- 11-14" with flowers
- Flower size is 3" - 3.5" in diameter

New Garvinea Femmy ppaf

New Garvinea Sweet Frosting ppaf

Garvinea Sweet Memories ppaf

Garvinea Sweet Smile ppaf

Garvinea Sweet Love ppaf

Garvinea Sweet Sunset ppaf

FLOWERING PLANTS

EUPHORBIA

Euphorbia Glitz
• 10" - 14"
• Extremely well branched due to production from seed

Euphorbia Euphoric ppaf
• 14"
• Good performance from Syngenta

EURYOPS

Euryops Sonnenschein
• 12" • Sun
• Full upright grower
• Clean yellow color for early spring show

GERANIUM

Rozanne
• A true, hardy perennial Geranium
• Easy to flower
• First year flowering

GAURA

Gaura Belleza Dark Pink ppaf
• 14" • Sun, mounding
• Perennial in Zone 5

HEUCHERA

New Heuchera Happy Purple ppaf

Heuchera Black Sea ppaf

Heuchera Coral Sea ppaf

These Heuchera make great accents. They are also a solid perennial and have been propagated from tissue culture so they will develop good branching.

Heuchera Caramel ppaf

HELIOPSIS

New Heliopsis Sole d'Oro ppaf

NEW Series

Growing TIP

Hardy to zone 3 and should be grown like an annual to flower the first year. A one gallon pot is ideal.

New Heliopsis Punto Rosso Compact ppaf

HELIOTROPE

Heliotrope Fragrant White
• 12" • Sun • Upright
• White blooms on vigorous growth - responds well to B-9

Heliotrope Fragrant Delight
• 12" • Sun • Upright
• Deep blue color and fragrance are the selling points

IBERIS

Iberis Masterpiece ppaf
• 12" • Annual • Can be grown cool like Osteospermum and will bloom all summer with large flowers

ISOTOMA

Isotoma Fizz N Pop Glowing Violet
• 10" • Upright habit • Full sun
• Good flowering all summer

HELLEBORUS

LORD SERIES

NEW Series

New Lord Red ppaf • 20"

New Lord Dark Pink ppaf • 20"

New Lord Specked Red ppaf • 20"

New Lord Soft Pink ppaf • 20"

New Lord Specked White ppaf • 20"

The Lord series is very winter hardy and gives a good selection of colors. These are Orientalis types.

Emma ppaf • 12" • Flowers open white and then change to rich shades of pink

Snow Love ppaf • 12" • Spring blooming with white flowers. Little darkening of flowers.

Candy Love ppaf • 12" • A very big seller for early season

These four varieties are Nigercor types. They are strong growing with good winter hardiness. They are typically spring blooming.

Growing TIP Can be sold green in the first year or overwintered to bloom the following early spring. Best if grown in 7" pots or larger.

Mon Blanc ppaf • The best white with heavy blooms around Christmas • 20" • Full sun to partial shade • This is a Niger type, not as winter-hardy in the garden.

Winterbells ppaf • 20" • Full sun to partial shade • Great rich color - flowers all summer

New 00202 ViV® Valeria • An Ericsmithii type • A good choice for the garden

00091 ViV® Victoria • An Orientalis hybrid • A strong outdoor variety

New 00137 ViV® Rosa • An Orientalis hybrid • A strong outdoor variety

SUNPATIENS

New Compact Rose Glow ppaf • 24"

Compact Pink Candy ppaf • 24"

Compact Purple ppaf • 24"

New Compact Hot Pink ppaf • 24"

Compact Coral Pink • 24"

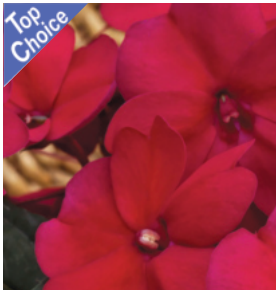

Compact Red ppaf • 20"

Compact Lilac ppaf • 24"

Compact Hot Coral ppaf • 24"

Compact Royal Magenta ppaf • 24" • Sun to shade

Compact Orange ppaf • 24"

Compact Electric Orange ppaf • 18"

Compact White ppaf • 24"

Compact Tropical Rose ppaf • 24" • An aggressive grower • Can take one or more weeks longer to bloom

Compact Blush Pink ppaf • 24"

Compact Fire Red ppaf • 24"

Compact Orchid Blush ppaf • 24"

Growing TIP Sunpatiens® are faster and larger growing than New Guinea Impatiens and will grow in full sun or part shade. Excellent in 4-inch, quart, gallon and hanging basket production. We suggest feeding less than most spring plants and not using PGRs after potting.

NEW GUINEA IMPATIENS

NEW GUINEA IMPATIENS -ROLLERCOASTER SERIES

NEW Series

New Rollercoaster Red Racer ppaf
• 12"
• Unique semi-double flowers with interesting fringed edges.

New Rollercoaster White Lightning ppaf
• 12"
• Unique semi-double flowers with interesting fringed edges.

Rollercoaster Hot Pink ppaf
• 12"
• Unique semi-double flowers with interesting fringed edges.

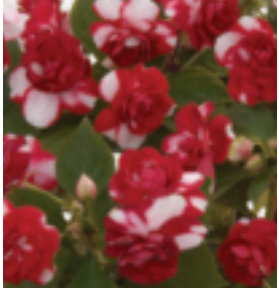

New Rollercoaster Tangy Taffy ppaf
• 12"
• Unique semi-double flowers with interesting fringed edges.

Growing TIP

- Fertilizer requirement is low, such as 100-150ppm N
- Like other New Guinea Impatiens, performs best in moderate to full shade

DOUBLE IMPATIENS - ROSEBUD® SERIES

Cherry Vanilla ppaf
• 12"

Red ppaf
• 12"

Purple Magic USPP 8339
• 10"

Pink ppaf
• 10"

White ppaf
• 8"

Strawberries and Cream ppaf
• 8"

- Shade to partial shade
- Mounding
- Fully double blooms on green foliage

SOL LUNA SERIES
Sun Tolerant Series

NEW Series

New Sol Luna Candy Apple ppaf
• Bred for sun or shade

New Sol Luna Dark Lavender ppaf
• Bred for sun or shade

New Sol Luna Pink ppaf
• Bred for sun or shade

New Sol Luna Tropical Punch ppaf
• Bred for sun or shade

BOUNCE SERIES

• 8"

Wild Romance White ppaf
• 8"

Wild Romance Red ppaf
• 8"

LANTANA

BANDANA® SERIES

Bandana Mango ppaf
• 12" • Full Sun • Mounding

Bandana Cherry ppaf
• 12" • Full sun • Mounding

Bandana Cherry Sunrise ppaf
• 12" • Full sun • Mounding

Bandana Pink ppaf
• 12" • Full sun • Mounding

Growing TIP

This medium vigor Lantana series is self-branching with little need for PGRs. Extra large flowers thrive in heat and attract butterflies.

Bandana Peach ppaf
• 12" • Full Sun • Mounding

Bandana Yellow ppaf
• 12" • Full sun • Mounding

Bandana Lemon Zest ppaf
• 12" • Full sun • Mounding

Bandana White ppaf
• 12" • Full sun • Mounding

Bandana Red ppaf
• 12" • Full sun • Mounding

BANDOLERO® SERIES

Bandolero Cherry Sunrise paf
• 16"

Bandolero Guava ppaf
• 16"

Bandolero Red ppaf
• 16"

Bandolero Pink ppaf
• 16"

Bandolero Pineapple ppaf
• 16"

LANTANA

New Lantana Hanging Purple
• This older variety is making a comeback!
• The best trailing Lantana • Blooms all summer

HOT BLOODED

Hot Blooded Red ppaf
• 15-18" • Full sun
• Mounding habit with more vigor than Bandanas

Three Series From Syngenta:

- Bandanas are well known and are of medium vigor.
- Bandoleros are more vigorous and for those growers who feel that the Bandanas do not size up enough to make large pots in a timely manner.
- Hot Blooded is a stand alone variety that is more vigorous than Bandanas and has sterile flowers and produces no seeds.

LAVENDER

Lavender Superblue ppaf
• A hardy Lavanidula with rich violet blue flowers that flowers easily the first year

FIRST Year Flowering Perennial

LOBELIA

Lobelia Hot Snow White ppaf
• 8"

Lobelia Hot Royal Blue ppaf
• 8"

These three Hot varieties all have the same mounding habit and work well together.

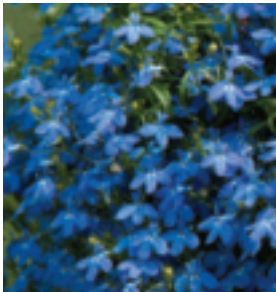

Lobelia Hot Waterblue ppaf
• 8" • Our best-selling Lobelia

Lobelia Magadi Basket Dark Blue ppaf
• Mounding and trailing
• Great for both pots and hangers

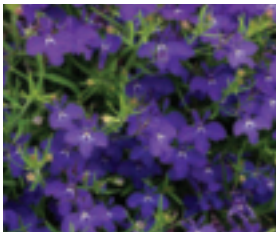

LOBELIA - TECHNO™ SERIES

Techno Blue ppaf
• Mounding and trailing
• Most popular of the Techno series

Techno Electric Blue ppaf
• Mounding and trailing

Techno Dark Blue ppaf
• Mounding and trailing

Techno White ppaf
• Mounding and trailing

Techno Upright Dark Blue ppaf
• Mounding

FLOWERING PLANTS

LEUCANTHEMUM

Leucanthemum Sweet Daisy Birdy ppaf
• This new addition to our Shasta Daisy choices gives you the opportunity to choose different yet great flower forms

FIRST Year Flowering Perennial

Leucanthemum Sweet Daisy Christine ppaf
• Dummer's most popular Shasta Daisy with first year flowering

FIRST Year Flowering Perennial

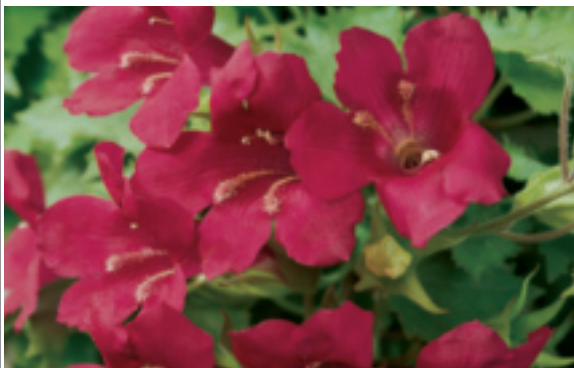

LOPHOSPERMUM

Lofos® Compact White ppaf

Lofos® Compact Rose ppaf

Lofos® Great Cascade Wine Red
• Trailing • Sun • Vigorous • Great for hangers and combo planters

Growing TIP

The Lofos Compact series, from Suntory, will bloom on one-foot vines, making them much easier to grow and ship. Grow in pots or hangers.

FALL BLOOM - ASTERS & MUMS

Victoria Fanny

Our wide assortment of Asters includes both the Victoria Series from Danish Breeding and the Henry series from Syngenta. We focus on double flowering Asters that are fully hardy.

We offer a full line of Gediflora, Syngenta and Ball garden Mums. Please contact your sales representative for a list of varieties.

PESTICIDES, BIOLOGICALS & CERTIFICATIONS

Regarding the chemicals we use on young plants during the production process, our MPS certificate encourages us to minimize our use of chemical crop protection agents. One way to accomplish this is to use biological controls when possible. For some pests we have been able to be pesticide free. Pesticides and fungicides we use most frequently have a lower residual, making it easier to introduce beneficial insects at the finish stage.

A list of pesticides we currently apply is available at www.dscolegrowers.com. You are also welcome to call and speak to one of our growers at 603-783-9561.

Disclaimer: Pest control is still our main focus. We can never be sure what pest is on the horizon, or what the next pesticide is coming to the market, nor can we be sure what pesticide has been used by one of our unrooted cutting suppliers.

D.S. Cole Growers' Certifications:

- MPS ABC: This certification helps us monitor and make adjustments to our inputs to reduce our environmental impact. Our score tells us when we are improving and in which categories we may be doing better or may need to improve.
- USDA GAP (Good Agricultural Practices): This certificate is achieved and audited yearly. Practices include the safe handling of crops and worker hygiene.
- SANC (Systems Approach to Nursery Certification): This ensures that a producer is using a holistic approach to reduce pest risks associated with plant trade. It is a new program initiated by the National Plant Board to provide a producer the ability to transport plants throughout all of the United States under its umbrella.

Availability is live on our website every day between December and May at www.dscolegrowers.com

See our website www.dscolegrowers.com or call us directly for cultural information on our products.

Minimum Per Shipment is 600 plants. This replaces our past procedure of calculating by tray count. If it is necessary to order less than 600 plants per shipment, a \$10 charge will be applied.

All products should be ordered in multiples of 50 cells.

We define "Late Orders" as those orders that we receive any day of the week prior to the shipping week. It also includes those received by noon on Monday of the actual ship week. We do not charge a "Below minimum charge" on these orders.

Any product additions or a change to the Ship Via to existing orders must happen by the Wednesday prior to the ship week.

No cancellations after the product has been stuck.

Determining how to fill boxes can be a challenge due to the nature of our products. We have a number of box sizes available to make most combinations of varieties fit well without wasted space. In general, it is best for an entire shipment to total numbers in even hundreds, rather than 50s. For example, space is typically better utilized when the plant quantity is 1200, 1300 or 1400 rather than 1250, 1350 or 1450.

There is a box charge of \$0.75 per 50 cells. Box charges apply only when packaging is needed. Example, trays that travel on shipping carts on our trucks will have no box charge. Trays that require packing for pick-ups, will have a box charge. We pack according to our best knowledge of the weather conditions during transit. There is no extra charge for "winter pack."

a) "Strip Tray 50" - ordered and invoiced at 50, includes most Begonias, Geraniums, Alstroemeria, Patio Gerbera, Echinacea, Helleborus and Mandevilla.

b) All other items (other than some collections) are rooted in 51 count trays and billed as 50.

We ship tags with all young plants. This is included in the price. If you don't want to receive tags, please tell your broker and we can accommodate.

Royalties are included in the price where applicable. **Third Party** We use different trucking companies to move both large and small pallets of product throughout the Northeast.

Airfreight - From Manchester, NH, via: Southwest, **Trucking** - move both large and small pallets of product throughout the Northeast.

Courier - FedEx

Grower - See map and schedule at right. Be advised that all truck schedules are subject to adequate volume per area per week.

Truck - Monday - Friday, 8AM - 4PM

Please call one week ahead to arrange a pick up time.

The following brokers carry our products:

Ball ColorLink, Ball Seed Co., Eason Horticultural Resources, Joseph Giannino Co., Fred C. Gloeckner Co., McHutchison, Henry Michell Co., Park Seed Co., Griffin, Messick, Vaughan's Horticulture and BFG Supply Co.

D.S. Cole Growers, Inc., warrants to the extent of the purchase price that all products, whether from cuttings or seed, are sold true to name and shall conform within recognized tolerances. No further warranty is expressed or implied as to future marketability. Purchaser shall be limited to the invoice value at the time of purchase of any D.S. Cole Growers, Inc., product as its exclusive remedy to breach of warranty.

All claims must be submitted to your broker within 24 hours of receipt of product. This includes quality claims as well as freight and mishandling issues. It is important to provide photos of the plants if there are problems. This helps us all understand the issue.

Remember, our price includes the cost of the tags, marketing fees and all royalties!
